

1/17/19

Good morning Chair Dembrow, Vice chair Olsen and Members of the Senate Interim Committee on Environment and Natural Resource.

My name is Phebe Doukas and I'm an eighth grader at Sunnyside Environmental school. I'm writing in support of LC 19 and climate action.

Global warming is an emergency. It's a fact that the Earth is warming, and that we need to take action now. 2019 was the hottest year recorded human history. Temperatures over the world have reached  $127.6^{\circ}\text{F}$  ( $53.1^{\circ}\text{C}$ ). We can't sit around while ecosystems are destroyed and animals are hurting.

I want to have a future. If we don't start to really change about how we act around climate change, my friends, my future family, and myself will have a broken world to live in. I want to be able to see my kids and my grandkids grow up.

This is unfinished business. It needs to be done. It takes everybody to make a change this big. Please vote yes to support LC 19, and to help make a change.

Thank you,

Phebe Doukas
