Subject: Climate Change Policy
Date: Sunday, January 19, 2020 5:47:35 PM

I support a strong cap and invest policy.

I support LC 19 with improvements for climate.

I support strong climate legislation for Oregon's future.

I am a parent, rural Oregonian, and small business owner who understands the gravity of climate change and thus the inexcusability of our political leadership to do nothing.

Let's get on with implementing measures to slow climate change such as preserving the last 3% of our old growth forests, keeping our state forests free of roads and logging, legislating longer rotations on the tree farms, moving away from fossil fuels to clean energy. We need to incentivize private land holders to keep their trees growing and sequestering carbon. The science is clear that we must act quickly and decisively. Now our politicians must do the responsible thing.
