Subject: SB 1530 (formerly LC 19) - Testimony in favor of strong climate action
Date: Saturday, January 18, 2020 12:01:43 PM

Dear Senate Committee Environment and Natural Resources,

Dear State of Oregon legislators:

I find the organized opposition to SB 1530 hard to comprehend. I can only conclude that a disturbing number of both citizens and legislators do not believe what the consensus of climate science scientists have been telling us: that we have about a decade to make substantial changes in the way we conduct our public and private lives if we are to avoid the worst consequences of a warming planet.

Please approach this issue thinking of the well-being of present young people and generations unborn. And support strong climate action in 2020.

Thank you for hearing me on this issue,

John Hammond

Sincerely,

John Hammond
