Subject: Oregon needs a STRONG climate bill -2020
Date: Monday, January 20, 2020 1:42:22 PM

writing to you in full support of a strong climate bill that drops ALL carve-outs, puts Oregon on the path toward 100% clean renewable carbon-free future in strongest possible track, aiming for 10 years. We owe this to our children!!

I'm a senior heading toward my 80s.

Don't muck it up - the current draft bill is a travesty.
