Subject: I STRONGLY Support Cap and Invest, and LC 19
Date: Monday, January 20, 2020 12:49:14 PM

I am a native Oregonian, grew up in a logging community on the Oregon Coast and now live in Beaverton, where I own a small business. I am sickened by the changes I see in our state that are the direct result of climate change: hotter oceans increasingly incapable of supporting the fish and birds that depend on it for food, poor health in our children because of bad air quality, fish dying as they try to spawn when there is not enough water in our rivers for them to travel upstream, wildfires, trees dead from drought and insect infestations, the list goes on and on. We must do everything we can to reverse this trend or the earth as we know it will cease to exist.

I support a strong cap and invest and any climate legislation that will help reverse the devastation we are facing. Do not allow a small segment of the state population to control what happens to the future of all of us.

Sincerely,
Alex Prentiss
