Subject: Support for LC 19
Date: Monday, January 20, 2020 2:46:53 PM

Dear Senate Committee on Environment and Natural Resources.

We strongly support a cap and trade policy such as LC 19. We are parents of two Oregonians and are about to be a grandparent. We are extremely concerned about our climate crisis. While we have made significant personal changes to reduce our carbon footprint (no flying, high efficiency appliances, solar panels on roof), individual change is not enough. We need policy changes such as LC 19 represents.

Thank you.

Bill and Jan Madill
