I strongly support legislation to establish a strong program to impose statewide and sector-wide greenhouse gas emissions reduction in Oregon and urge passage of a strengthened LC19.

Encouraging your consideration on Julia Seidler's book, "Living with the Enemy". All about endocrine disruptors in our home environs.

As one reviewer stated, "*Living with the Enemy*" is a wakeup call for consumers. Find out more from the author herself <https://www.amazon.com/Living-Enemy-Chemical-Toxins-Affect-ebook/dp/B07BHHZCWN>

Senators:

It is up to you to compromise on legislation that kick starts Oregon's participation in limiting all ghg emissions.

Ray Seidler

Rural Oregonians live with global warming and its effects day in and day out. **We suffer more from global warming than urban Oregonians. We know action is necessary and urgent.**

Our crops suffer from excess heat, our environment loses plants and trees every year due to drought and heat, and our water supplies both for farming and domestic use are declining, high temperature and low humidity force catastrophic fires. ..

support a strong clean energy bill. Climate change has arrived in Oregon.

I support a strong clean energy bill Legislative Concept 19

I strongly support a greenhouse gas emissions reduction bill such as the current iteration known as Legislative Concept 19 (LC19).
