Greetings!

I am an Oregonian from the Southern part of the state who organically, biodynamically grows most of the vegetables and fruits we consume and owns a small business from the land: Yahya Divine Elixirs. I support strong climate action because I am gravely concerned for the skyrocketing temperatures that increase our likelihood of more fires and the contamination and degradation in our soils from the many chemicals used.

I urge your leadership in passing legislation that 1) puts a limit and price on greenhouse gas emissions, 2) provides incentives for climate-friendly agricultural practices, and 3) helps our communities prepare for the impacts of a changing climate.

Sincerely,  
Suzanna Nadler, Farmer
