Dear Oregon Legislators

I support LC 19 with improvements for climate. As a 4th generation Oregonian and owner of a small woodlot, I have watched with great concern over my 75 years as my beloved state has experienced the impacts of the climate crisis in Oregon.

A few years ago, my 70 acre woodlot in Douglas County narrowly escaped being burned in the Horse Prairie fire, and every year fire season is more frightening. We need strong climate legislation.

Sincerely

Alice Carlson
