Subject: Subject: SB 1530 TESTIMONY IN SUPPORT OF STRONG CLIMATE ACTION
Date: Tuesday, January 21, 2020 7:25:27 PM

my name is Cheryl E Grant and I am a lover of nature and have enjoyed the beauty of Oregon and it's progressive place in the preservation of the environment since I was a little girl. My father had a friendship with Tom McCall and we have enjoyed the legacy of this beautiful land and coastline as a result of recycling and staving off of offshore drilling and corporate exploitation of our forests and waters. I appreciate all that you do, however SB 1530 needs to be stronger... to reduce greenhouse gasses from oil companies all across the state to protect our citizens and our native tribal lands and people from the ravages of climate change and pollution. We don't need less protection we need more... especially in protecting the interest and the integrity of the quality of life for both people and wildlife ... our greatest treasure. Oregon's oceans are becoming more acidic ... and wildfires are ravaging our land. I remember the Oregon I grew up with don't sell out and sell short. There is no choice but to keep up your good work and be the heroes and protectors of this great legacy ... thank you for all you do and will continue to do.

Sincerely and urgently, Cheryl E Grant
