I fully support a very strong cap and invest policy. I feel this revised version is too weak and needs to be strengthened. The fee per ton must be increased and EVERYONE must participate.

I reside in Union county and our senator William Hansell refuses to inform the citizens on this matter through public discussion. This area receives 6-9 hours per weekday of climate misinformation and our area schools have only recently broached the subject. Over the last several years I have asked for help with climate information from the governor's office, Oregon Global Warming Commission, my state and federal representatives with no success.

My name is Charles L. LeBold, Union,OR, 97883. 541-562-6153
