Oregon needs strong laws to protect our climate and environment and LC 19 proposes steps that can make a difference. I support strong legislation to cap, trade and limit consumption of natural resources as essential to creating a sustainable economy and environment. LC 19 expresses conservation values that have defined Oregon for decades. We are experiencing the effects of climate change and must do our part as a state. Please support LC 19.

Thank you for working for the good of Oregon and its future,
