Subject: To urge legislative action on climate legislation
Date: Tuesday, January 21, 2020 3:17:52 PM

The climate problem is real and it is time for the legislature to act. We urgently need state climate policy with emission goals based in science, investments for a transition from fossil fuels, and supports for the communities most impacted by the adverse climate effects. I write this on behalf of my 4 grandchildren and urge the legislature to take action.
