To whom it may concern,

I support strong climate legislation for Oregon's future including strong cap and invest policy. I'm a grandparent, and I'm terrified what the climate crisis will bring for next generations. We cannot afford to take half measures, this is the time to act! Climate change will bring social unrest, our food supplies will be affected (it's already happening). I'm tired of hearing excuses that our business will hurt if we transition to alternative energy. We'll have no economy left if we don't take care of climate change now.

ACT NOW, support LC 19 with improvements for climate!

Thank you,
