Subject: I support strong climate legislation
Date: Tuesday, January 21, 2020 11:23:25 AM

I support strong climate legislation for Oregon's future and the future of our planet. I am a retired public school teacher and am greatly concerned about the world we are leaving to our youth. We know the climate is changing right now. Many trees are dying in southern Oregon due to drought. We are experiencing more severe wildfire, with unhealthy smoke-filled air on what should be beautiful summer days. Oregon can be a leader on this issue. Ultimately, legislation that supports rural communities with clean energy jobs that help us sequester CO2 and transition away from fossil fuels would be ideal. Creating cap and trade markets for the largest emissions producers is a good place to start.

Jennifer Carloni, Roseburg, Senate District 7
