Dear Oregon Legislators

I support LC 19 with improvements for climate. I do so as a homeowner and very senior citizen who lives in Precinct # 9 in Roseburg OR on the South Umpqua River. Increases in FEMA Insurance and Property taxes are only two of my concerns. What safety measures are occurring for the impact of very current and certain future impacts of the changing Oregon climate and World Climate. Every week I witness changes in the rise and fall of the river passing by and note how different its activity compared to years past. Last year I had to leave my home because of electrical outages lasting for days and weeks. Last summer the river flow was so low that I found myself so saddened by the memories of years past when my 4 grandchildren boated and swam and frolicked in healthy flowing water. They and all other friends have not been in the river here for 5 or 6 years. Please act now!

Also we have almost no recycling program here in Roseburg. What a shame on all. Hurts my heart every time I put out the trash!

Warmly,

Lillene Fifield

Precinct 9 on the Umpqua River

Roseburg, OR 97471
