**Subject:** I support programs to reduce climate problems  
**Date:** Tuesday, January 21, 2020 2:34:39 PM

---

Oregon and the world need to do what we can to prevent and improve climate change. It will cause some problems and if those are managed with good communication, we can move ahead together.....Don't quit trying to do the right things.

I've been in the housing market and done what I could over the years to conserve, that is not enough now.....Stick up for the future, the world and our youth,,,,,,,,,please
