People,

I am writing you to declare that I support strong climate legislation for Oregon's and the planet's future, ie, a strong cap and invest policy.

I am a 5th generation Oregonian, hiker, fly fisher, nurse and small business owner. We are experiencing the impacts of the climate crisis in Oregon in our business and as witnessed in the climate changes over the last 40 years exploring Oregon country.

I thank you for your service and as a voter, I expect results.

Most Sincerely,

Karen Cronin Lynn
