---

To Whom It May Concern,

I am writing in support a strong cap and invest policy, as detailed in C 19 with improvements for climate2. I've spent my working life and raised my children in Portland. I own a home, recreate in the great parks of our state and have family all over the state. The impacts of climate change are all around us. In the absence of federal leadership, we need to take action. I live here and I vote here. My children deserve what we all have enjoyed and without action we are playing dice with their future. Please take action at this critical juncture.

Regards,

Randy Russell  
State Senate District 21 (Kathleen Taylor)
