Subject: My Family, Friends, and I Support Strong Climate Legislation!
Date: Tuesday, January 21, 2020 8:51:47 PM

Dear Oregon Legislature,
Please know that my family, friends, and I support LC 19 with improvements for climate. We are southern Washington residents, but owners of a small business in Hood River for the past 18 years. Regional climate, of course, knows no political boundaries and we are collectively witnessing the impacts of climate change throughout the Columbia Gorge region. Please support strong climate legislation now and in the future. Our family, and our daughter in particular, are depending on it.
Sincerely,
Steve Kingsford-Smith
