Dear Legislator,

I am terribly concern about the future of our planet. At the speed we are going we are sentencing not only the human race but the all the living kingdoms to extinction. I support strong climate legislation for Oregon's future. I am a mother, a Medicine Woman, a Dancer and absolutely I am a nature lover. Nothing makes me happier than the song of a feathered winded one. Please help us preserve nature and future generations to come. All creatures are sacred.

Thank you for your understanding,
