Subject: I support strong climate legislation
Date: Wednesday, January 22, 2020 8:53:59 PM

I support strong climate legislation for Oregon's future. I support a strong cap and invest policy. I am a mother and a principal, and I am experiencing the impacts of the climate crisis in Oregon through the stress, anxiety, and depression I see in the students at my school who are scared about the future because of the climate crisis. They see what is happening and they want the adults and role models around them to make the choice to prioritize a healthy planet for everyone.
