Subject: I support strong climate legislation
Date: Thursday, January 23, 2020 3:45:02 PM

I support strong effective forward thinking climate legislation for the future of Oregon, the Nation, and the entire planet.

As a lifelong Oregonian I am seeing the effects of climate change as a realtime event on multiple fronts. I feel strongly that certain industries opposition to any meaningful legislation (often using half truths or outright lies) is a failure to Oregon and Oregonians present and future.
