Subject: Climate legislature
Date: Thursday, January 23, 2020 1:50:49 PM

I am a concerned grandparent we need the strongest climate bills to protect our environment! I am a hiker and x skier and I see the results of climate change many places please protect our land so that our children and their children can enjoy our wonderful state. The fossil fuel industry and polluters have benefited while we have suffered the consequences of their greed. Thank you.
