**Subject:** Support for climate legislation in Oregon  
**Date:** Thursday, January 23, 2020 2:25:01 PM

---

I support SB 1530 or even stronger legislation to implement a cap and invest policy in Oregon. I think climate change is a risk more severe than a world war, and I think we should respond accordingly. I'm a senior citizen and retired business owner living in suburban Portland. I think it's urgent that we deal with this issue right away. Please support and strengthen SB 1530. This is what government is for.
