---

Dear Senator Frederick,

I support a strong cap and invest policy and LC 19 with improvements for climate. I am a person of color and a Portland resident who grew up on an Eastern Oregon ranch and know how important a healthy climate is for the success of ranchers, farmers and for people disproportionately affected by climate change both in the city and in every area of our state.

Thank you for your support of good climate policy and your work.

Sincerely,  
Carol Cheney  
District 22
