Subject: Rural Oregonian from Roseburg
Date: Wednesday, January 22, 2020 1:39:36 PM

I am a rural Oregonian from Roseburg who has lived here 40 years. I am terrified of climate change and the rate that our trees are dying because of the drought. I am also terrified of the fires that have happened over the past 10 years in our Douglas County alone. Please do something to STOP CLIMATE CHANGE! Don't just walk out and turn your backs to this alarming climate devastation.
