Subject: "I support strong climate legislation"
Date: Thursday, January 23, 2020 7:01:36 AM

I support a strong cap and invest policy as I am extremely concerned about Oregon and earth's future. We are in a climate crisis.

I am a land owner in rural Oregon after years of being an executive in publicly traded company. I see the damage done by the entrenched, single minded on profit corporations. I am gravely concerned about the drought, fires and radical change in the landscape and environment around me. We are extremely anxious about the summer conditions and probably high fire risk season - once again.

Act now! I support LC 19 with improvements for climate.
