Subject: Support Carbon-cap legislation
Date: Wednesday, January 22, 2020 3:52:44 PM

I am an Oregon parent and grandparent, and I'm appalled that we can even think about denying our kids and grandkids a viable, livable world to grow in. The science is inescapable, the climate-change crisis is real and threatens the web of life as we know it. Oregon's children and grandchildren deserve your support for LC 19.
