Subject: I Support Strong Climate Legislation

In consideration of the Legislative Concept I support a strong cap and invest policy-
-stron enough to compatible with CA.

I am a retired Emergency Physician, life-long environmentalist, liberal Democrat with a degree in Forestry who has lived in Oregon for over 32 years. Having just sold my cabin at ODell Lake in the Cascades I have seen first hand the impacts of climate change with decreased snowpack and larger, hotter wildfires.

Sincerely,
