Dear Senators,

I am a constituent of Senator Peter Courtney. I've included committee members of the Senate Interim Committee on Environment and Natural Resources in my email testimony to him about LC19, which now has a bill number: 1530.

It is imperative that you support a strong cap and invest policy for Oregon's future. Climate change is real; it is terrifying to think of the future my children and grandchildren face if we don't take steps to mitigate climate change now. This planet is in crisis. LC 19, now SB 1530, is a start. If amended, I'd like it to be strengthened.

Thank you for your consideration on this critically important issue.
