Subject: Climate Change Legislation
Date: Friday, January 24, 2020 3:54:45 PM

Ladies and Gentlemen, I am a 76 year old grandma and I was so fortunate to grow up in a time when the environment was something we didn't have to think about all the time, but we probably should have. We were able to just enjoy the beauty of our world.

I now have an 18 year old grandson, and he and his peers think about the rapidly changing climate every single day. I know this adds much consternation to their young lives and on top of it all they have to watch our politicians sit around and propose miniscule changes, when a climate emergency should immediately be the top priority of every politician in our State and in the whole country.

We are OREGON!! We should be the leaders in this catastrophic situation. As Greta Thunberg would say.....SHAME ON YOU!!!
