Dear Chair Dembrow, Vice Chair Olsen and members of the Senate Interim Committee on the Environment and Natural Resources,

My name is Pam Howard. I am a parent and a grandparent. I live in Multnomah County. Thank you for your continued work on a strong climate action Bill during this short legislative session.

We cannot watch Oregon's children inherit a world without clean air or water. We are in a race against rising temperatures.

Early this month, I watched testimony for SB 1530 outside the Hearing Room on a television. There have been concessions and compromises from HB 2020. We need to hold largest polluters responsible! When I look into the faces of our youth and weigh their future against large corporate profits, it becomes a moral choice for me. You, our Legislators, have the power to insure Oregon's health for future generations. I urge you to pass a Bill that does not reflect pressure from corporate lobbyists.

Thank you for your continued dedication and service,

Pam Howard
