Subject: Climate change bill
Date: Sunday, January 26, 2020 1:27:18 PM

Dear legislators,

Thank you for your service. I think climate change is an emergency threatening our quality of life and perhaps our very lives.

I urge you to pass a strong climate change bill to bring us to carbon neutral and mandate improvement in auto emissions and minimum MPG on new automobiles. It would be good to include funds to educate the public in the ways we can help as individuals. I feel this is key to making changes.

As a citizen, I am willing to do whatever it takes to turn this disaster around.

Thank you Skye Sugar
