Subject: Please support strong climate change legislation
Date: Sunday, January 26, 2020 4:09:03 PM

I am writing because strong climate change legislation is a must right now. My collage age and elementary age daughters, both have anxiety due to climate change and the perceived lack of concern they see from older generations. Their outlook on the future is grim. I can't image being a young person these days. Please do what it is needed to give them hope and show that older generations care, make right on past wrongs, and never give up.

Sincerely,
Jennifer Shuping
