Please vote NO on Cap & Trade. I live in our huge rural area of Oregon where much of our human and animal food is grown. Also, our above and below ground level resources are mostly found in this area. Your Cap and Trade plans are extremely financially harmful to our rural areas, businesses and citizens. Please vote NO on this bureaucratic administrative Oregon nightmare. At the very least have the wisdom and courtesy to submit Cap & Trade to the voters of Oregon.

Thank you for this opportunity to comment.
