Dear Chair Dembrow,

Oregon is already so heavily taxed it is not a business friendly state. SB 1530 will impact not only businesses but our general population with higher fuel bills. Rural Oregon is in such a unique area with such great distances just to go to "town" it is not uncommon to drive an hour or more . Yes it takes fuel just for groceries , parts , banking etc. Our farming/ranching activities also use fuel to produce food. The farmer/rancher community already works on a very small margin of profit and some years none.

Ultimately this higher cost will be passed on to the consumer .

It stands to reason the SB1530 is a no win for Oregon and I strongly appose it!!

Sincerely,

Mary Jo Davies
