Dear Chair Dembrow, Vice Chair Olsen and Members of the Senate Interim Committee on Environment and Natural Resources,

My name is Jan Hankerson and I'm a long time resident of and business owner in Oregon.

I believe it's imperative we make major changes in our lives to do everything we can to preserve this planet. If not, and very soon, the world as we know it will be forever lost.

We need improvements to the transportation portion of SN 1530 so all oil companies pay their fair share no matter where they're located. Oil companies are the largest source of pollution in our state and we cannot let them off the hook.

As written, this bill would pay fossil fuel polluters to continue business as usual. We can't afford business as usual. We cannot allow legislation to move forward that is climate action in name only, while it fails to hold large polluters accountable.

I hope you will support changes to this bill and support the passage of bold climate action in 2020. This issue is too important for us to turn our backs on. And time is of the essence.

Yours sincerely,

Jan Hankerson
