Subject: I support a stronger version of LC-19
Date: Saturday, January 25, 2020 12:11:58 PM

I strongly support LC19 as a part of Oregon's response to the climate crisis, we will all find is the defining issue of the first half the 21st century. If we effectively address this issue globally, both the economy and individual quality of life will improve. The cost of inaction will be far higher than the pain of change on affected industries.
