Subject: SB 1530: STRONG CLIMATE ACTION TESTIMONY
Date: Sunday, January 26, 2020 6:23:11 PM

Dear Chair Dembrow, Vice Chair Olsen and Members of the Senate Interim Committee on Environment and Natural Resources,

The watered-down industry friendly bill that is being considered is insufficient to counter the magnitude of the climate crisis. As you yourselves can probably tell by merely stepping outside this winter, the Oregon climate is warming. We have minimal snow pack so far and exceedingly warm temperatures. If left unaddressed, this will detrimentally impact farm land and forests, leading to economic and social instability.

Let's make Oregon a leader in legislation that enforces CO2 reduction for the largest industrial emitters and puts Oregonians to work in renewable energy.

Yours sincerely,
Johann Miller
