Subject: Support for SB 1530
Date: Tuesday, January 28, 2020 9:02:10 PM

Chair Dembrow, Vice-Chair Olsen, and Members
of the Senate Interim Committee on Environment and Natural Resources,

My name is Olivia Lufkin and I am a junior at Franklin High School. I'm writing in support of LC 19 on behalf of the Environmental club that I am the president of at my school. We represent around 200 individuals who are passionate about environmental justice and conserving the environment. Our club works toward making our community more sustainable and environmentally friendly. This bill is an exemplification of our club's values: prioritizing frontline communities, holding polluters accountable for the mess they've made and with a goal of drastically reducing emissions by 2040.

Climate change is one of the most pressing issues of our time and will have detrimental effects on the global population. Frustratingly, those that it will affect the most in their lifetimes have very little say in the government due to age or inaccessibility and yet so many youths are passionate about this issue. Please, don't let us down, our future depends on the important decisions you will be making at this important moment in history.

I urge you to support and strengthen SB 1530, we are counting on you to save the hope we have for a future.

Thank you,
Olivia Lufkin, Age 16
