Subject: LC 19 / SB 1530 – Oregon agriculture in favor of strong climate action
Date: Sunday, January 26, 2020 9:50:45 AM

Hello,

My name is Stacey Janssen. I am resident of Eugene Oregon. I am a committed supporter and patron of local farmers. The climate crisis needs urgent, strong, sensible climate policy; and leaders at all levels for the planet to have a healthy future.

I support the more that 250 rural agricultural stewards and urge your leadership in passing legislation that 1) puts a limit and price on greenhouse gas emissions 2) provides incentives for climate-friendly agricultural practices, and 3) helps our communities prepare for the impacts of a changing climate. Cap and Invest legislation is critical to ensuring that Oregon limits climate pollution and can provide resources to support agricultural practices that mitigate climate change and create resiliency in the face of climate change.

here are many voices in rural Oregon supporting strong climate policy.

Please take action now and do the right thing for Oregon and the planet and pass this important legislation. Thank you.

Sincerely,
Stacey Janssen
Eugene, Oregon
