Hi,

My name is Theresa Beck van Heemstra and I am a resident of Portland, OR 97215. I support a strong cap and invest policy like the one in I LC 19 with improvements for climate. As a parent of a 5 year old and an elementary school teacher, I support strong climate legislation for Oregon's future. I am incredibly concerned about the signs that we are heading towards a climate crisis from which, without meaningful legislation and immediate change, we will not recover. We need environmental protections to secure a good future for our children.
