Dear Chair Dembrow,

I really see no need for this cap and trade bill SB1530. I have a small cattle operation, and according to what I have read, it would raise my costs by \$100 dollars per year, just for the fuel that I would use. Now that may not seem like very much to you, but that is just one more thing that is increasing my costs to do business. My feed bill is more every year, the hourly rate that I have to pay someone to do the repairs that I can not do, is always going up, fencing , gates, panels, hardware, everything is on the rise. Yet what I receive for my animals every year has stayed pretty much the same for the last three years. That is why I oppose this bill, we don't need any more pressure.

Sincerely,

Steve Walker
