I'm writing to ask for an immediate, statewide freeze on rents and mortgages and all other housing related expenses. This should not be a case of postponing payments until later; there should be no debt incurred from the freeze.

Similarly, all other debts should be frozen/forgiven for the duration of the state of emergency.

All prisoners and jail inmates should be released and sheltered if they have no housing to return to.

All political activity, such as petition signature gathering, should be allowed a digital option for the duration of the state of emergency.

All applicants for unemployment benefits should be immediately approved.

Thank you for your consideration.
