

Hello,

My name is Amy Cain and our household is experiencing effects of the COVID-19 Quarantine. Even though we have great positive spirits during this odd time there are many other people in our financial mystery boat.

As someone who has been laid of from a small company and my roommate who works multiple part time jobs without emergency paid leave. We need clarity and financial grace/support to figure out the next steps within this trial.

For we are a household like many who depends on each paycheck to support monthly rent, utilities and bills.

I continue for pray for provision of this world during the healing time and financial uncertainty. In addition for our leaders who will support and aid many.

Best,  
Amy Cain
