

Hello:

I am a small business owner in Wallowa County. The mandatory closures and recommended social limitations are taking a negative toll on my business. Because I teach small group exercise classes, my clients are deciding not to attend, for fear of exposure. Also, I teach individual sessions which require close proximity between my client and me; these private clients are also choosing not to attend. Since we do not know for how long the necessary restrictions will need to be extended, I am very worried about the viability of my small business. I recently moved my business to Wallowa County, so I do not have a well-established clientele yet, anyway. The domino effect from the closures and restriction is quickly reducing my income.

Please consider some sort of revenue replacement for small business owners.

Respectfully,

Victoria Mosse, MA, ATC, FNTPT
