

With how the it is knowing that i will not lose my home after i have lose both of my jobs with no guarantee for the future, coming up with 6 months of rent debt is seemingly impossible. Please really think about this. Once we are over this, a lot of bars and restaurants will not be reopening, which is such a shame because that is so many peoples livelihoods . Not everyone will be getting hired immediately and that is a huge stress factor for the community

Please think about this,

Megan Carr
