

To whom it may concern,

I am a small business owner and to take out a loan or only defer payments in this uncertain time will surely make my business close and leave me with debt in the long run - if this current situation continues, which by the look at our global community, it will.

I would ask for you folks to sign off on a grant program to help our small businesses get through this time and help us pay for our fixed costs. Additionally, it would be helpful if we were also able to access the like of unemployment. I personally pay myself through owner's draws and do not qualify.

I hope you consider the consequences if a large fraction of small businesses close permanently and make your choices wisely around the longterm projection.

With care,  
Jennifer
