

To whom it may concern:

I own a small ceramics business in Portland, Oregon. As of now, I am closed. My employees have all applied for unemployment. I am scared to take out loans, because I have no idea when this will pass, if I will ever be able to pay back the loans, and there is no clear state or federal guideline for small businesses to follow.

I NEED A GRANT.

My worry is that I will NOT be able to survive this to rehire my employees, and then we will all be in the place of uncertainly indefinitely.

Thanks!
